Section 4: First-Aid Measures

Description of First Aid Measures

GeneralNever give anything by mouth to an unconscious person. If you feel unwell, seek medical advice.InhalationWhen symptoms occur: go into open air and ventilate suspected area. Remove to fresh air and keep at
rest in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.Skin ContactRemove contaminated clothing. Brush off loose particles. Drench affected area with water for at least
15 minutes. Obtain medical attention if irritation persists. Wash contaminated clothing before reuse.Eye ContactRinse cautiously with water for several minutes. Brush off loose particles. Remove contact lenses, if
present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.IngestionRinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician.

Most Important Symptoms and Effects Both Acute and Delayed

GeneralDust may cause mechanical irritation to eyes, nose, throat, and lungsInhalationProlonged contact with large amounts of dust may cause mechanical irritation.

Skin ContactSkin contact with large amounts of dust may cause mechanical irritation.Eye ContactContact may cause irritation due to mechanical abrasionIngestionIngestion is not likely to be harmful or have adverse effectsChronicNot available

Section 5: Fire-Fighting Measures

Suitable Extinguishing Media: Unsuitable Extinguishing Media: Fire Hazard: Explosion Hazard: Reactivity: Hazardous Combustion Products: Other Information: Use extinguishing media appropriate for surrounding fire. Do not use a heavy water stream. Use of heavy stream of water may spread fire. Not considered flammable but may burn at high temperatures. Product is not explosive. When heated to decomposition, emits toxic fumes. Toxic Gas. Toxic fumes are released. Hydrogen chloride. Sodium oxides. Chlorine. Do not allow run-off from firefighting to enter drains or water courses.

Section 6: Accidental Release Measures

Personal Precautions	Avoid breathing (dust). Avoid all contact with skin, eyes, or clothing.
Protective Equipment:	Use appropriate personal protection equipment (PPE).
Environmental Precautions	Prevent entry to sewers and public waters. Avoid release to the environment.
Methods for Cleaning Up	Clear up spills immediately and dispose of waste safely. Recover the product by vacuuming, shoveling or sweeping. Contact competent authorities after a spill.

Section 7: Handling And Storage

Precautions for Safe Handling

Additional Hazards When Processed Hygiene Measures	When heated to decomposition, emits toxic fumes. Contact with water causes an exothermic heat reaction, which may cause significant temperature rise. Corrosive to metals upon prolonged contact. May release hydrogen gas on prolonged contact with certain metals. Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and		
	again when leaving work. Do not eat, drink or smoke when using this product. Wash hands		
and forearms thoroughly after handling. Conditions for Safe Storage, Including Any Incompatibilities			
Technical Measures	Comply with applicable regulations		
Storage Conditions	Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Keep/Store away from extremely high or low temperatures, direct sunlight, heat, ignition sources, and incompatible materials.		
Incompatible Materials	Strong acids. Strong bases. Strong oxidizers.		

Section 8: Exposure Controls/Personal Protection

Control Parameters No Occupational Exposure Limits (OELs) have been established for this product or its chemical components.

Appropriate Engineering Controls

Personal Protective Equipment Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure all national/local regulations are observed. Ensure adequate ventilation, especially in confined areas Protective goggles. Protective clothing. Insufficient ventilation: wear respiratory protection. Gloves.

Materials for Protective Clothing: Hand Protection: Eye Protection: Skin and Body Protection:

Chemically resistant materials and fabrics.

Wear chemically resistant protective gloves. Chemical goggles or face shield. Wear suitable protective clothing.

Respiratory Protection:

Use NIOSH-approved air-purifying or supplied-air respirator where airborne concentrations are expected to exceed exposure limits.
